SUMMARY

- Motivated Full-Stack MERN Developer with hands-on experience building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB.
- Seeking an opportunity to contribute to innovative software development projects while growing as a Full-Stack Developer in a collaborative team environment.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Context API, Responsive Design, REST API Integration
- **Backend:** Node.js, Express.js, JWT Authentication
- **Database:** MongoDB
- **Core Concepts:** Data Structures & Algorithms (Arrays, Strings), Object-Oriented Programming (OOP), REST APIs
- **Tools:** Git, GitHub, VS Code, Postman

TRAINING

AccioJob Skill Center

Full-Stack Web Development (MERN Stack)

2025 – 2026

- Completed hands-on training in HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, Git, and GitHub.
- Built multiple full-stack projects implementing authentication, CRUD operations, responsive UI, and API integration.
- Gained practical experience with modern web development tools, version control, and deployment workflows.

PROJECTS

CommunityHub – React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, REST APIs [Live](#)

- Built a full-stack community platform, collaborating with cross-functional teams to enable users to create, join, and manage communities
- Implemented JWT-based authentication, authorization, and user account management features
- Developed REST APIs with Node.js and Express.js, articulating technical architecture to stakeholders while integrating MongoDB for data storage
- Facilitated user feedback sessions while creating a responsive React.js frontend with community creation, post sharing, and dynamic content rendering.

Smart Study Session – HTML, CSS, JavaScript [Live](#)

- Developed a responsive web-based study platform that improved task completion rates by 25% and reduced distractions during learning sessions.
- Collaborated with stakeholders to design a productivity application with study and break cycles, pause/resume functionality, and session tracking.
- Used LocalStorage to persist session data and user history. Integrated dynamic progress bar and motivational quote API, presenting data-driven UI updates to project stakeholders.

Recipe Router Application – HTML, CSS, JavaScript [Live](#)

- Developed a web application that allows users to explore, create, and manage a variety of recipes in an organized and user-friendly interface.
- Built dynamic recipe application with form validation and event handling. Implemented LocalStorage for managing recipes and favorites.
- Added random recipe generator with interactive UI highlighting.

EDUCATION

S. K. Gandhi College, Kada

Bachelor of Computer Applications (BCA)

2022 – 2025

CGPA: 7.60/10

COURSEWORK

- Database Management Systems (DBMS), Object Oriented Programming
- Web Development

CERTIFICATIONS

- Web Development Certification
- Completed Full-Stack Web Development Training from AccioJob covering MERN Stack (HTML5, JavaScript, React.js, Node.js, Express.js, MongoDB). [Certificate](#)
